Discontinuation of calculation and dissemination of STXUSD (Slovakian Traded Index in USD), STXEUR (Slovakian Traded Index in EUR) and STL (Slovakian Traded Index in local currency)!

The calculation will be discontinued as of Thursday, 16 January 2003. The last day of calculation will therefore be on Wednesday, 15 January 2003.

At the same time, the STXEUR respectively the STXUSD will no longer be part of the CECE-Index in EUR respectively the CECE-Index in USD. Starting with 16 January 2003 the CECE-Index will consist of blue-chips of the Czech Republic, Hungary and Poland. At last the STX had a weighting of 0,8% in the CECE-Index.

Reasons for this decision have been the low free-float of companies listed on BSSE, a low turnover of the stocks traded and in general a low market interest in Slovakian stocks.

All adjustments stated above will also be applied to the CECE-Index.

RTX Lukoil New RF = *)
 Surgutneftegas New RF = *)
 Yukos New RF = *)
