

EANS-Adhoc: ANDRITZ: Financial provisions for continuation of Schuler's growth and strategy project

ad-hoc disclosure transmitted by euro adhoc with the aim of a Europe-wide distribution. The issuer is solely responsible for the content of this announcement.

other

Graz, October 30, 2013. ANDRITZ AG announces ad hoc that financial provisions totaling around 50 million euros have been made in connection with continuation of the growth and strategy project "Growing Together" initiated by the Schuler Group, Germany, in 2011 for integration of the Müller-Weingarten company; 35 million euros of this amount will be booked this year and the remaining 15 million euros in the course of next year. The focus of the operational measures planned by Schuler is directed towards concentration on core competencies in manufacturing, expanding service business, and strengthening the company's presence in growth markets, particularly in emerging markets.

These necessary measures, which will yield annual cost savings between 15 and 20 million euros after their implementation, are a continuation of the steps already taken to prepare Schuler's organization and cost structure for the market requirements in terms of earnings and growth. As far as organizational measures are concerned, Schuler recently downsized its management board from five to four members and will also substantially reduce the number of second-level managers in Germany. In addition, various ways of streamlining the Group structure, which has become very complex over the past few years as a result of company acquisitions, are currently being investigated, especially in Germany.
