**EANS-Adhoc: Earnings down for first half of year at € 2.7 million due to extraordinary effects / Forecast adjustment for 2017 as a whole**

Disclosed inside information pursuant to article 17 Market Abuse Regulation (MAR) transmitted by euro adhoc with the aim of a Europe-wide distribution. The issuer is responsible for the content of this announcement.

Leonding -

According to provisional, unaudited figures, Rosenbauer International AG is forecasting EBIT of EUR 2.7 million for the first half of 2017 despite the stable development in revenues. Non-recurring costs for the reorganization of staff structures in Austria, extraordinary expenditure on intangible assets, capacity under-utilization in some production areas, significantly higher start-up costs for the new subsidiaries and exchange rate effects will impact the results for the half-year.

Owing to the above results for the first half of the year, the Executive Board anticipates that the results for the year as a whole will be down significantly on the previous year's level. The full financial report on the first half of 2017 will be published on August 11, 2017.
