**The Management Board of voestalpine AG resolves to use treasury shares to satisfy the subscription rights of the 2023 convertible bonds (if applicable)**

On April 28, 2023, voestalpine AG issued unsubordinated, unsecured convertible bonds with a total nominal value of EUR 250 million and a term until April 28, 2028 (ISIN AT0000A33R11). If the holders of the convertible bonds exercise their conversion rights, the convertible bonds entitle them to subscribe shares in the company. The Management Board may use the conditional capital or treasury shares or a combination of both to satisfy this subscription right.

The Management Board of voestalpine AG decided today to use treasury shares to issue to creditors of the convertible bonds who exercise their conversion rights to shares in the company by the end of the term.

7,070,000 treasury shares were repurchased between November 10, 2022, and July 10, 2023, as part of a share buyback program. The total number of treasury shares currently stands at 7,098,547 (= 3.98% of the share capital). Based on the current conversion price (= approx. EUR 40.49), up to 6,174,760 shares (= 3.52% of the share capital) would be required to cover all conversion rights of the 2023 convertible bonds.
