EVN AG is the majority shareholder in Burgenland Holding AG and holds a stake of 73.63% of the share capital, with Verbund AG holding more than 10% and WIEN ENERGIE GmbH holding between 5% and 10%. All other shareholders hold less than 4%.

The Burgenland Holding AG share

Despite all discussions surrounding the crisis in Greece, the economic environments in the US and Europe are characterised by positive growth rates. As for the US economy, the first interest rate hike by the Fed is now expected for September 2015. By contrast, there is currently no end in sight to the ECB's expansive monetary policy. Against the backdrop of the yet again escalating conflict with regard to Greece, the unresolved military confrontation in Ukraine, and the general geopolitical situation in the weeks leading up to the end of the reporting period, the international stock markets were unable to hold on to the all-time highs they had reached earlier.

In a market situation that remains difficult for an energy company, the share of Burgenland Holding AG rose

15.2% in the reporting period and stood at 50.01 euros as of June 30, 2015. This corresponds to a market capitalisation of 150 million euros. Daily trading volume averaged 26 shares during the reporting period, and the weighting of the share in Vienna's WBI index as of June 30, 2015 was at 0.17%.

Vienna's leading ATX index performed quite favourably in the last nine months, recording an increase of 9.4%; the Dow Jones Euro Stoxx Utilities industry index, relevant for Burgenland Holding AG, dropped 7.5% in the reporting period.

2) Q1-3 2013/14

Income situation

Investment income for the first three quarters of 2014/15 amounted to EUR 8.4m. The unchanged dividend payout of Energie Burgenland AG and a rise in the payout of CEESEG AG to EUR 0.1m led to a moderate increase compared to last year.

Balance sheet and capital structure

The 26th Annual General Meeting on March 20, 2015, resolved the distribution of a dividend of EUR 2.70 per share (last year: EUR 2.70 per share) for the 2013/14 business year; this corresponds to a payout of EUR 8.1m.

As of June 30, 2015, the balance sheet total amounted to EUR 78.4m, thus slightly above the corresponding figure

as of the balance sheet date of September 30, 2014. This development can mostly be attributed to a small increase in receivables due from associated companies, which are fully made up by investments of liquid short-term funds. The equity ratio remained unchanged at almost 100% as of June 30, 2015.

Outlook

Due to the fact that the dividend payouts of Energie Burgenland AG and CEESEG AG from their respective net profits have already been accounted for, no major changes are expected for the 2014/15 business year after the first nine months of 2014/15. The result for the current business year is expected to be slightly above that of last year.
