Ratings" commencing on page 13 of the Original Registration Document as amended by Supplement no. 1 dated 30 April 2025 and Supplement no. 2 dated 4 December 2025 shall be replaced by the following paragraphs:

(i):

"The Issuer is assigned a long-term rating for senior debt of "A2" with a positive outlook by Moody's Deutschland GmbH ("**Moody's**") and of "A-" with positive outlook by S&P Global Ratings Europe Ltd. (*Niederlassung Deutschland*) ("**Standard & Poor's**"), as well as a short-term rating of "P-1" by Moody's and of "A-2" by Standard & Poor's assigned to the issuer. The Issuer's cover pool for public-sector covered bonds is assigned a rating of "Aaa" and the cover pool for mortgage covered bonds is assigned a rating of "Aaa" by Moody's."

(ii):

"A long-term rating of "A" assigned by Moody's to obligations means such obligations are judged to be upper-medium grade and are subject to low credit risk. Obligations rated "Aaa" are judged to be of highest quality, subject to the lowest credit risk. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category. (*Source: Moody's*)"

(iii):

"A long-term rating of "A" assigned by Standard & Poor's means the obligor's capacity to meet its financial commitments is strong but is somewhat more susceptible to the adverse effects of changes in

circumstances and economic conditions than obligations in higher-rated categories. Standard & Poor's ratings from "AA" to "CCC" may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories. Additionally, Standard & Poor's can provide an estimation (known as Credit Watch) as to whether a rating will be upgraded, downgraded or whether the trend is uncertain (neutral). *) Income Statement, loans to customers and deposits from customers presented as per Segment Reporting in the Notes of the Annual Report 2025 (corresponding to the format used for segment reporting and reflecting Segment Austria as presented in the segment reporting of the parent company of the Issuer, UniCredit S.p.A.). Previous year adjusted, mainly relating to the transfer of the Iberian portfolio to the German UniCredit Bank GmbH. Balance Sheet presented as per Annual Report 2025. Presented key performance indicators refer to income statement and balance sheet figures presented above, respectively are regulatory capital ratios (including leverage ratio).

1 Capital ratios based on all risks according to Basel 4 (2025) and Basel 3 (2024).

2 Leverage Ratio pursuant to the Delegated Regulation (EU) 2015/62, based on the current status of transitional arrangements.

The following commentary on the development of Bank Austria's operating activities and performance is based on the income statement structure used for segment reporting.

In 2025, Bank Austria generated **operating income** of €2,616 million (-3% compared to the prior year's figure of €2,698 million). Adjusted for the sale of card complete, operating income declined by 2%, from €2,631 million in 2024 to €2,574 million in 2025. The decrease was driven primarily by lower net interest income as a result of the changed interest rate environment, while fees increased by 2% (or +6% when adjusted for the sale of its subsidiary card complete¹).

Operating costs were slightly reduced to €1,027 million in 2025 (prior year: €1,031 million), underscoring the continued efficiency in cost management, while fully compensating for inflation. If adjusted for the sale of card complete¹, operating costs rose by 2%.

Gross operating profit reached €1,589 million, which is 5% below the prior-year figure of €1,667 million, primarily due to the reduction in net interest income described above.

In 2025, the **cost/income ratio** remained strong at a level of 39.3%, reflecting good operational efficiency (prior year: 38.2%), while **Return on Allocated Capital (ROAC)**² declined from 23.8% to 22.6% following the introduction of Basel 4.

Loan loss provisions ("LLPs") for 2025 amounted to €-33 million (of which €+57 million related to stages 1 and 2 and €-89 million to stage 3) compared to prior year of -43 million. In the retail segment, releases of €+88 million were recorded, while wealth management & private banking reported a release

of €+0.5 million. LLPs in the corporates segment reached €-121 million in 2025 (a reduction of €6 million vs. previous year), driven by inflows in non-performing exposures due to single larger defaults in the fourth quarter of 2025 and re-assessment of the geopolitical overlays which were partially compensated by model changes and recalibrations.

In 2025, the Issuer generated an operating result after loan loss provisions (**net operating profit**) of €1,556 million, -4% compared to the prior-year figure of €1,624 million.

Other charges and provisions (incl. systemic charges) recognized during the reporting period amounted to €-111 million (prior year: €-50 million) including a provision for loan processing fees. Furthermore, in this amount **systemic charges** are included which increased significantly to €-73 million (2024: €-21 million), primarily due to an increased bank levy (€-51 million).

Integration costs rose to €-145 million (prior year: €-88 million) and include expenses related to the purchase of Bank Austria's head office building at Rothschildplatz 1 on Vienna's Austria Campus, as well as measures to successfully implement the multi-year strategic plan.

Net income from investments amounted to €164 million (prior year: €73 million). This primarily reflects value adjustments on selected equity-accounted investments (especially relating to BTV which belongs to the 3-Banken Group), as well as valuation and disposal results from real estate properties.

Income taxes decreased to €-200 million (prior year: €-296 million), mainly due to a lower tax allocation rate following the establishment of a new tax group.

As a result, the 2025 net profit (**Group stated net profit**) amounted to €1,260 million which is broadly unchanged compared to the prior-year period (€1,263 million), despite the bank levy increase of €51 million.

As at 31 December 2025, loans to customers amounted to € 62.1 billion, deposits from customers reached € 70.3 billion.

Based on these results, the following financial ratios were calculated:

- Cost/Income Ratio for the financial year 2025 stood at 39.3% (2024: 38.2%, adjusted)
- Total capital ratio as at 31 December 2025 (based on all risks) was 24.5% (2024: 23.2%)
- Common Equity Tier 1 capital ratio as at 31 December 2025 (based on all risks) was 20.6% (2024: 19.3%).

¹ Bank Austria closed the sale of its participation in card complete in September 2025. Adjustment refers to the exclusion of the card complete contribution for 8 months of 2025 and for the full year 2024, as card complete results were consolidated line by line.

² Return on Allocated Capital (ROAC): net profit measured against allocated capital (allocated capital being calculated based on risk-weighted assets and the CET1 target ratio as defined by UniCredit S.p.A. for the different parts of the UniCredit Group: 13% of risk-weighted assets (2025 and 2024))."

9. In the section entitled "I. LEGAL AND ARBITRATION PROCEEDINGS" the information in the subsection entitled "2. Alpine Holding GmbH" on page 21 of the Original Registration Document shall be replaced by the following information:

"Alpine Holding GmbH issued one bond in 2010, one in 2011 and one in 2012. In 2010 and 2011, Bank Austria acted as joint lead manager together with another bank. In June/July 2013, Alpine Holding GmbH and Alpine Bau GmbH became insolvent and bankruptcy proceedings followed. Numerous bondholders then wrote to the banks involved in the bond issues to assert claims. At least as far as Bank Austria is concerned, the bondholders largely based their claims on the prospectus liability of the joint lead managers and, in fewer cases, also on flawed investment advice provided by the banks that sold the bonds to their customers. Investors have filed civil proceedings with a total claims volume of € 18.3 million, including subpoenas for three class actions by the Federal Chamber of Labour, in which Bank Austria is named as a defendant in addition to other banks. The significant cause of action is the prospectus liability.

In July 2025, the Austrian Supreme Court confirmed the legal position of Bank Austria and the other issuing banks that the prospectuses were correct and complete and fully rejected the bondholders' claims based on prospectus liability. Based on that landmark decision favorable for Bank Austria and

on the subsequent settlements, the total claims volume reduced from € 18.3 million to some € 10.3 million, the largest portion thereof based on the prospectus liability.

In addition to the pending court claims, further actions against Bank Austria have been threatened in connection with Alpine bankruptcy, which could be brought in the future. Pending or future actions may negatively affect Bank Austria.

Bank Austria intends to use all available means to defend itself against these claims. With regard to the pending civil proceedings, Bank Austria has made provisions for risks and charges. No new provisions for risks and charges were made in the last years. At present, despite the favourable development it is not possible to estimate the timing and outcome of the various remaining court proceedings or to assess Bank Austria's level of responsibility, if any."

10. In the section entitled "I. LEGAL AND ARBITRATION PROCEEDINGS" the information in the subsection entitled "3. Class action suit regarding various fees" on page 21 of the Original Registration Document shall be replaced by the following information:

"The Austrian Chamber of Labour has filed a class action lawsuit under the Consumer Protection Act against Bank Austria, in which it asserts the inadmissibility or contractual invalidity of fees in the consumer loans due to violations of good morals or statutory provisions, due to gross disadvantage to the customer, as well as due to non-transparent wording. The fees in question are loan processing fees and six other fees: default interest, dunning charges, account maintenance fees, costs for deletion receipts, fees for additional confirmations and for special services.

If the fees are found to be inadmissible, they may no longer be agreed upon or charged in business transactions with consumers in the future. There is a risk that fees that were invalidly agreed upon may have to be refunded. However, in certain individual cases, Bank Austria may have individual defenses available.

As of the date of this Registration Document, the class action is currently pending before the Austrian Supreme Court with the currently assessed risk of an unfavorable decision being more likely than not.

Another class action asking for an injunction regarding loan processing fees was filed in June 2025 by the Consumer Protection Association (*Verbraucherschutzverein* - VSV), a private consumer protection organization and qualified entity pursuant to the Qualified Entities Act (*Qualifizierte-Einrichtungen-Gesetz*). The proceedings are pending at an early stage in first instance. The risk from these proceedings is considered to be similar to that of the aforementioned class action by the Austrian Chamber of Labor.

In addition to the lawsuits mentioned above, there are also proceedings by individual consumers against Bank Austria with similar subject matter. As of 31 December 2025, the total amount in dispute for those proceedings amounts to € 1.1 million (2024: € 0.3 million). As of the date of this Registration Document, the case law both in lower instances, as well as by the Austrian Supreme Court, is inconsistent. It is therefore not possible to estimate for Bank Austria, the timing and the outcome of the pending individual proceedings reliably.

A provision with regard to the loan processing fees and other fees challenged was set up in June 2025 and reassessed in December 2025."
