WBAG guarantee exclusively dedicated 256kb bandwidth per customer. Accordingly, WBAG recommend to use bandwidth management including exclusively dedicated bandwidth for reception of data feed market data. **WBAG recommend sufficient application tests before VPN is used for production. Due to the nature of VPN (Internet-based) connections this service cannot be offered as 'reliable'.**

The **service fee is euro 250/month** for all destinations plus a **once-off setup fee of EUR 1,000**. The fee is billed retrospectively on a quarterly basis. WBAG has the right to adjust the fees unilaterally. However, such unilateral fee adjustments may be carried out only once per calendar year. The Vendor shall be notified in writing about such adjustments at least three (3) calendar months in advance.
