

Data Usage Declaration Non-Display Use

This Data Usage Declaration (hereinafter “DUD”) is the **Client’s reporting template for Non-Display Data Use** of Real-Time Market Data. It covers the stock exchanges of **Vienna, Prague, Ljubljana and Zagreb**, the **APA Vienna** and the **APA Zagreb**, all of which are regulated by MiFIR as well as **Albania, Belgrade, Banja Luka, Macedonia, Kazakhstan** and the **Energy Exchange Austria**.

For the purpose of this DUD, all terms written in capital letters correspond to the terms in the definitions section of the Market Data Agreement.

The Client’s declaration must comprise its own as well as the Non-Display Data Use of the Client Group as listed in the Market Data Agreement unless the members of the Client Group declare their Non-Display Data Use independently in (a) separate DUD(s).

The DUD must be updated or confirmed by the Client **at least once a year by June 30** of the respective calendar year. If the DUD is not provided within one (1) month after June 30 of the respective calendar year, the price level for an unlimited number of Devices (enterprise license) shall apply.

If changes to the number of Devices during the current calendar year affect the licensing of Market Data, these changes must be reported to WBAG via the DUD within one (1) calendar month, stating the date of the change, so that WBAG can adjust the billing accordingly.

All Devices that have access to Market Data for Non-Display Data Use need to be included in the reporting via this DUD. For the avoidance of doubt, this includes Devices that are capable to access and Use Market Data for Display Data Use and Non-Display Data Use.

If the number of devices **exceeds 10 (ten) and this applies to all four MiFIR-regulated exchanges** (enterprise licence), reporting via DUD is **only necessary once**. For the avoidance of doubt, if the Client cannot control the access to Market Data, the enterprise licence applies.

The completed DUD should be emailed to mds@wienerboerse.at . If you have any questions regarding or need guidance on how to complete this DUD, please contact the Data Sales team on mds@wienerboerse.at.

Date of DUD completion

The Client/Client Group confirms that they do not currently have any Non-Display Data Use.

Company Details
