

Key figures of the Austrian stock market

The infrastructure of the Vienna Stock Exchange

As the main provider of market infrastructure in the region, Wiener Börse AG is the gate to global markets. Operating the stock exchanges in Vienna and Prague, the group offers state-of-the-art systems, information and IT services. Listed companies receive maximum liquidity and investors benefit from fast and cost-effective trading by the market leader. Wiener Börse AG also col-

lects and distributes stock market data and calculates the most important indices of the region. Because of this unique know-how the national stock exchanges in Budapest, Zagreb and Ljubljana trust its IT services. It also participates in other energy exchanges in the region and the central securities depository CSD Prague. This diversification creates a stable economic basis for the future.

Trading/Listing

The Vienna Stock Exchange is worldwide the most liquid trading venue for Austrian companies.

Market Data

The Vienna Stock Exchange gathers market data from 10 stock exchanges and makes it available via 1 data feed.

Indices

Our 150+ tradeable indices for 14 markets are characterized by maximum transparency.

IT-Services

The Vienna Stock Exchange is one of the leading IT system providers in Central and Eastern Europe.

Central Depository

Centralised securities depository is essential for the smooth functioning of capital markets.

Internationality of the Vienna Stock Exchange

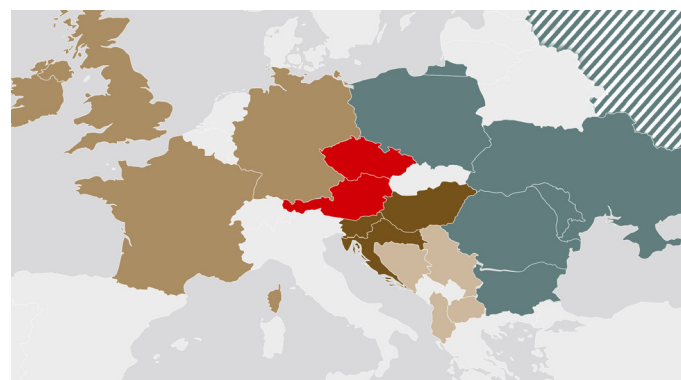

All major international trading firms have linked up to the Viennese market. A major share of trading volume on the Vienna Stock Exchange is generated by international trading members. National and, above all, international institutional investors are invested in ATX prime stocks.

*Others includes Sweden, Denmark, Japan, Poland
